COMPANY OVERVIEW

Who we are, whom we serve and how we work.

A practical protection partner built for wholesale cooperation.

UNIPROVE connects product selection, manufacturing, quality control, packaging and delivery in one coordinated process.

10+

Years of industry experience

B2B

Wholesale-focused business model

OEM / ODM

Customization support

Built for distributors, wholesalers, importers, brands, retail and repair channels, and e-commerce sellers.

Different markets need different product plans. We organize solutions around channel, price position and target buyers.

Built around the way B2B buyers actually work.

The right product range depends on channel, market, price tier and replenishment rhythm.

01

Distributors & Wholesalers

Model
coverage · replenishment · tiered
options

02

Brands & Importers

Private
label
·
specifications · repeatability

03

Retail & Repair Channels

Practical
SKUs · installation · fast-
moving models

04

E-commerce Sellers

Clear features · visual
packaging · product tiers

The cooperation starts with your market—not with a generic catalog.

02

PRODUCT PORTFOLIO

A focused portfolio built around real channel needs.

UNIPROVE · COMPANY PROFILE

01 **Screen Protectors**

02 **Camera Lens Protectors**

03 **Watch Protectors & Cases**

04 **Cutting Machines & Materials**

05 **Tablet Protectors**

06 **Phone Cases**

| SHOWROOM & PRODUCT SELECTION

A showroom that turns selection into a practical product plan.

- ✓ Compare product tiers and functions
- ✓ Review packaging and presentation
- ✓ Discuss model mixes for your channel

03

MANUFACTURING CAPABILITY

Production strength you can see.

From equipment and processing to warehouse handling and packed orders.

Manufacturing capability is visible on the floor.

Organized equipment and coordinated workflows support repeatable production across screen protection products.

Factory production

Factory production

Equipment supports repeatable production across batches.

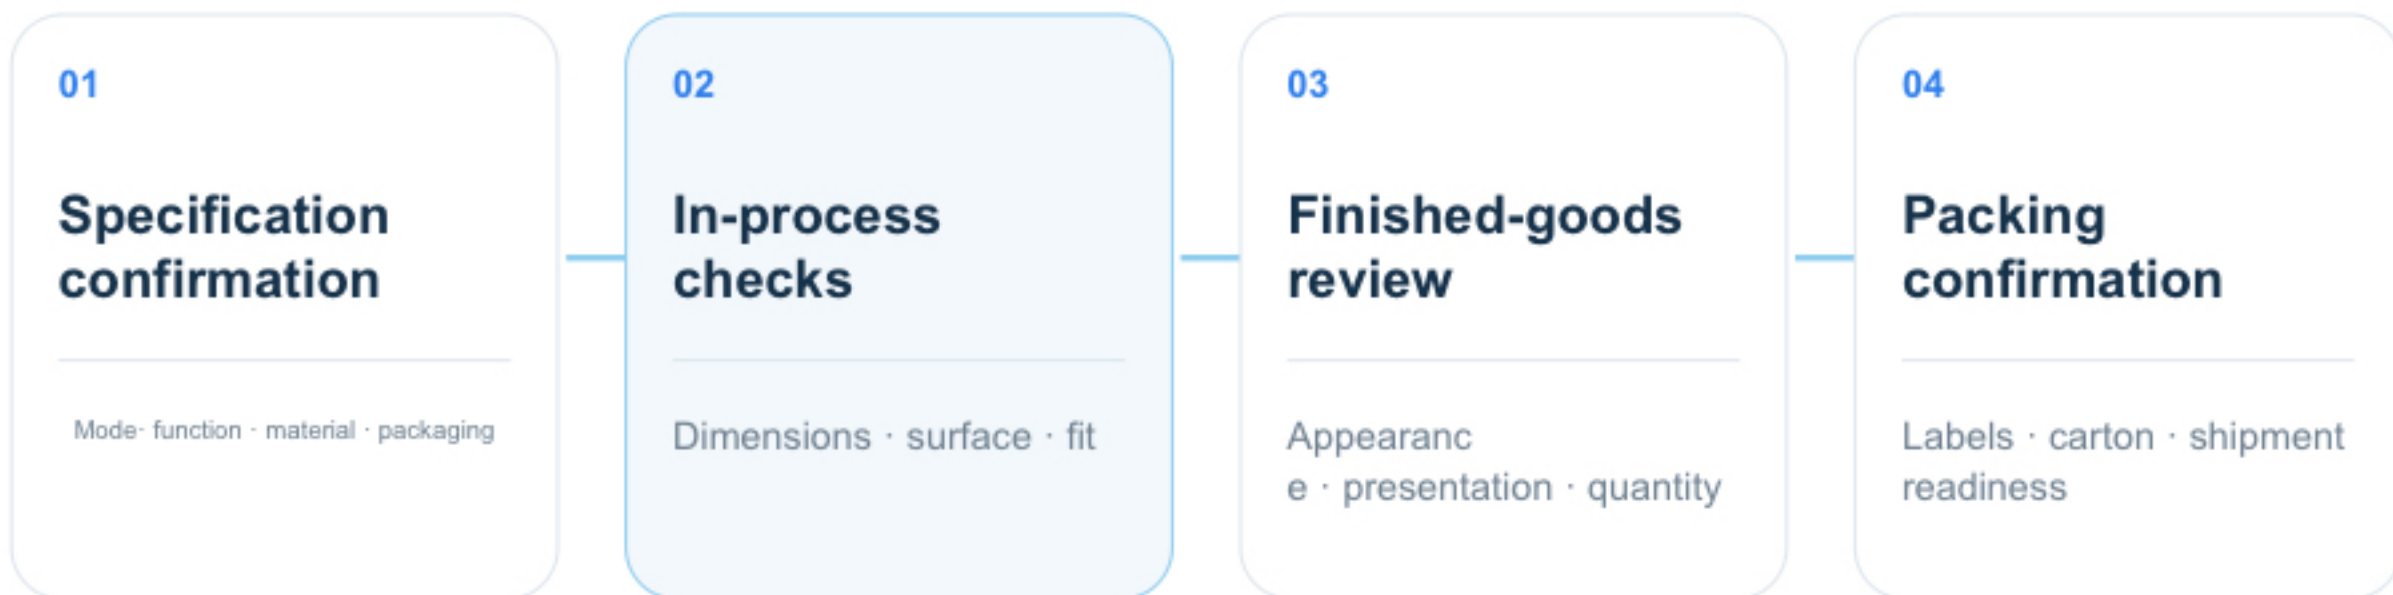

The focus is consistent execution: clear specifications, controlled processing and repeatable output.

Specification alignment → Controlled processing → Batch consistency

Quality control is built into the order

Checks are organized around the product, specification and order requirements.

The exact checkpoints vary by product and order. Clear confirmation reduces avoidable mismatch.

WAREHOUSE

Model, quantity and order information are kept clear for multi-SKU handling.

PACKING

Packaging, carton and shipment readiness are confirmed before dispatch.

OEM / ODM

Build a product line around your brand and market.

CUSTOM-MADE

专业承接OEM各种定制单

Your Brand
Customized

Build your own product line—with choices that can be confirmed and repeated.

01

Logo & private label

Confirmed before mass production

02

Packaging design

Confirmed before mass production

03

Materials & functions

Confirmed before mass production

04

Specifications

Confirmed before mass production

05

Model combinations

Confirmed before mass production

06

Sample confirmation

Confirmed before mass production

Brand position → Product specification → Sample confirmation → Repeatable production

05

GLOBAL COOPERATION

Real meetings. Practical solutions. Long-term cooperation.

For wholesalers, the goal is broad coverage without difficult inventory.

Typical cooperation scenario 1

CLIENT

01

**Wholesaler /
distributor**

CHALLENGE

02

**Many models,
several price tiers,
stable
replenishment**

SOLUTION

03

**Product mix, sample
confirmation, multi-
SKU supply,
ongoing restocking**

BUSINESS VALUE

04

**A clearer
assortment with
less
communication
friction**

A workable range matters more than an oversized catalog.

For private-label brands, differentiation must stay repeatable.

Typical cooperation scenario 2

CUSTOMER NEED

- Own brand identity
- Custom packaging
- Clear product differentiation
- Stable batch quality

UNIPROVE SUPPORT

- 01 Logo and private label
- 02 Packaging and visual direction
- 03 Product and model selection
- 04 Sample and specification confirmation

Brand consistency is created through clear confirmation and repeatable execution.

B2B buyers need more than a lower price.

A dependable supply partner helps reduce hidden time, communication and replenishment costs.

PRICE

One part of the decision

The real cost of cooperation also includes mismatch, delays, repeated confirmation and unstable replenishment.

01 Product consistency

02 Model availability

03 Restocking efficiency

04 Clear communication

05 Packaging accuracy

06 Reliable delivery

07 Long-term supply

That is what UNIPROVE focuses on.

Long-term partnerships are built in real conversations.

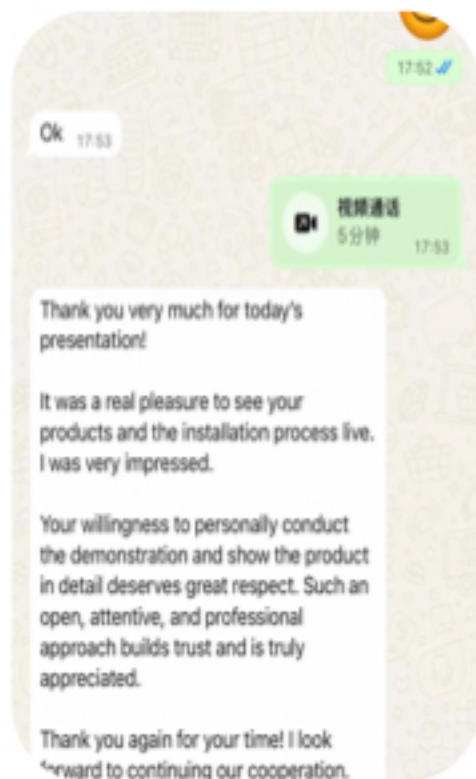

Different markets. Different needs. One shared goal: a practical product plan that works.

Clear communication. Stable supply. Practical solutions.

Trust is reflected in what partners notice.

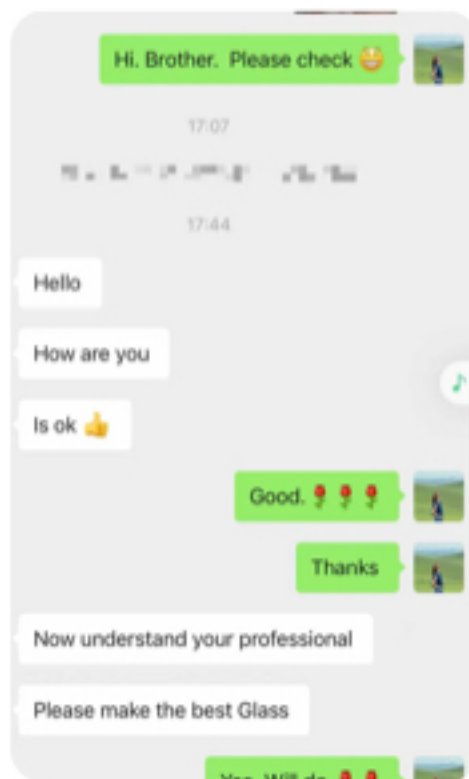

Real feedback is shown without customer names, logos or invented results.

“

Your professional approach builds trust.

Translated from a verified customer conversation

“

Now I understand your professionalism. Please make the best glass.

Quoted from a verified customer conversation

Speed builds confidence. Professional communication turns it into trust.

06

SALES SUPPORT

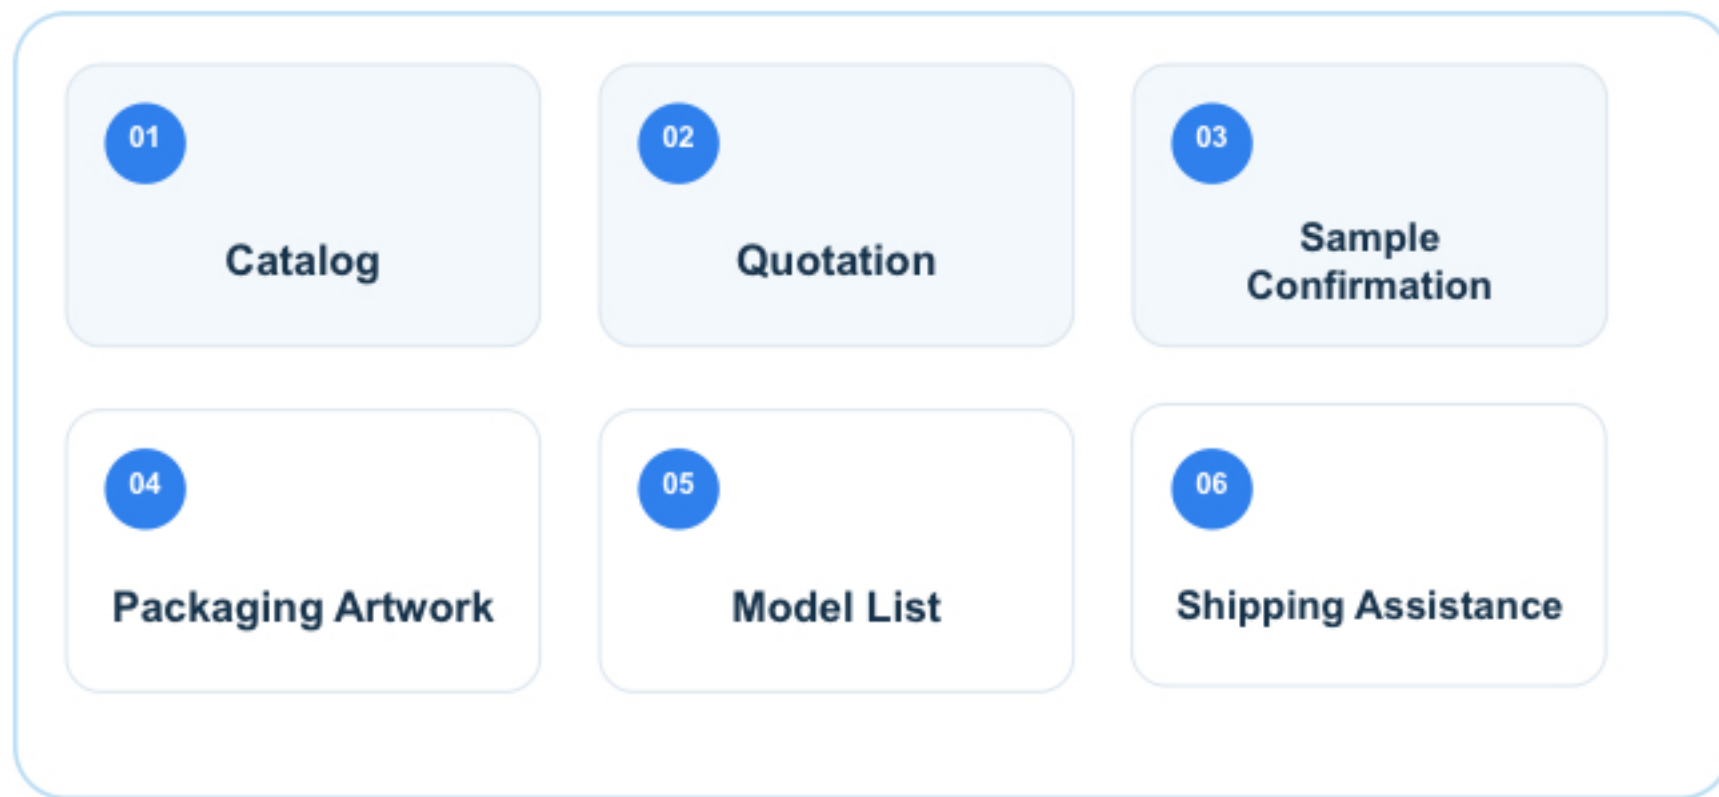

Practical support before, during and after the order.

UNIPROVE · COMPANY PROFILE

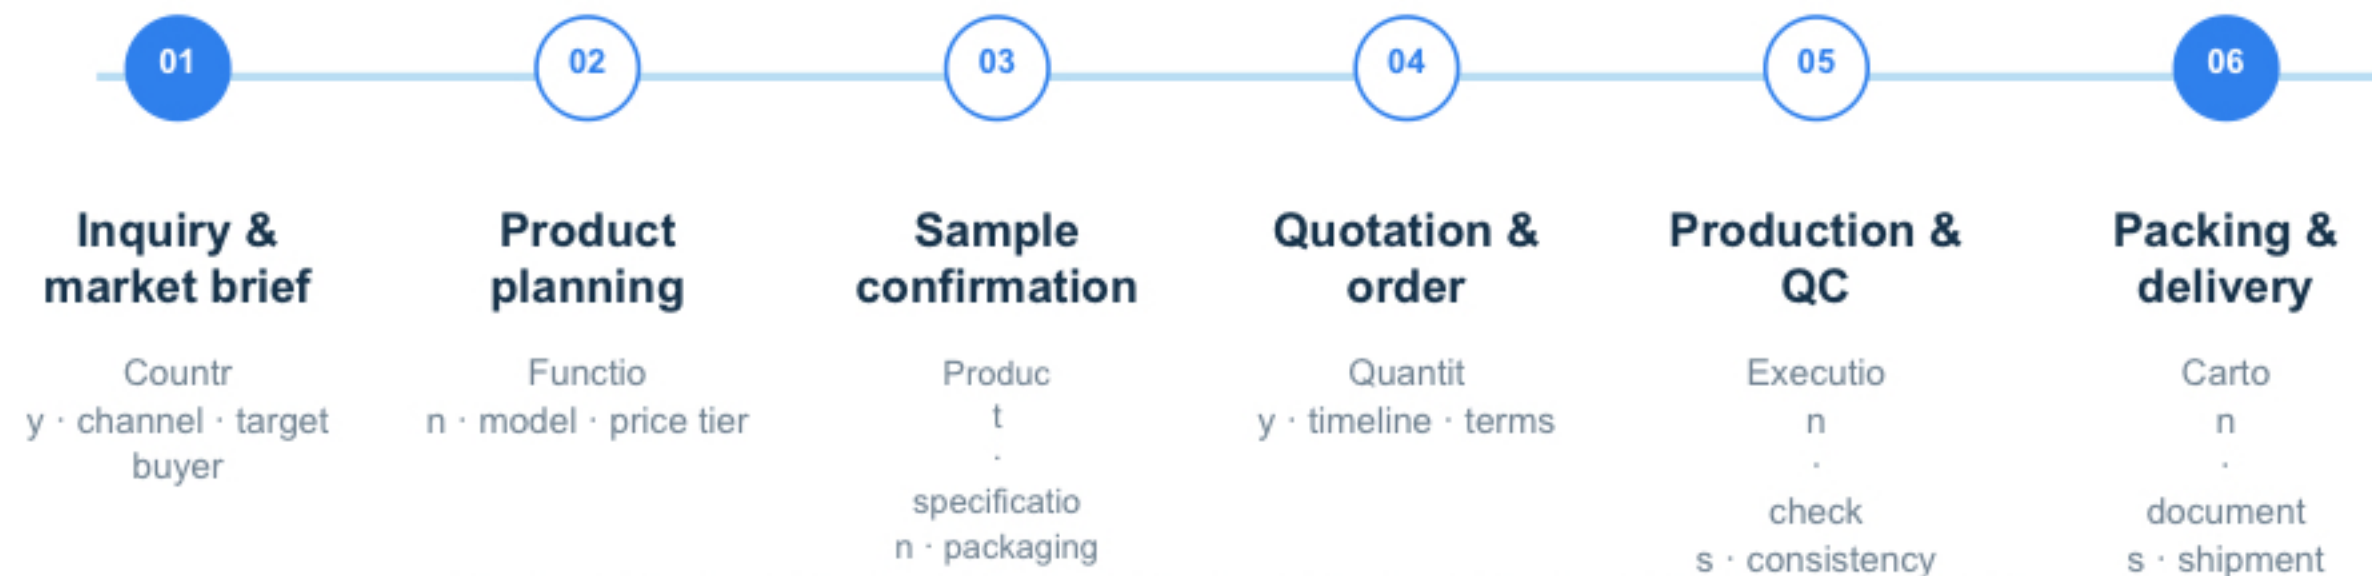

Six practical deliverables for smoother B2B cooperation.

Useful materials and confirmations—not decorative promises.

A clear process reduces avoidable purchasing risk.

Each step confirms what matters before the next one begins.

Clear requirements → clearer execution → more dependable cooperation

LET'S BUILD YOUR NEXT PRODUCT LINE
